**Alameda Creek Watershed Sediment Forum**
**951 Turner Ct, Room 230ABC**
**Hayward, CA**
**April 23, 2008**
**9:30 am – 3:30 pm**

**Objectives**

1. To enhance the potential for collaboration amongst the Stakeholders of the Alameda Creek Watershed through the vocabulary of technical scientific and engineering field observations and modeling.
2. To twice-annually provide a regular predictable forum to share scopes, timelines, preliminary findings, lessons learned and to develop new ideas and hypotheses.
3. To set goals for the watershed that address the common needs of the stakeholders and to provide a forum to begin the dialog of compromise when needs are competitive.

**Agenda**

| Time | Lead Authors | Coauthors | Presentation Title |
|---|---|---|---|
| 9:30 am | | | Welcome and introductions |
| 9:45 | Alicia Gilbreath | Lester McKee | Low flow turbidity monitoring in Alameda Creek from the Bay to the headwaters – Comparisons to water quality standards. |
| 10:15 | Paul Bigelow | Sarah Pearce, Lester McKee, Alicia Gilbreath | A Sediment Budget for Two Reaches of Alameda Creek |
| 10:45 | Justin Gragg | Tim Ramirez | SFPUC Post Sunol dam removal geomorphic monitoring |
| 11: 15 | Rune Storesund | Toby Minear Rohin Saleh | Composite Digital Terrain Models: Synthesizing Aerial and Terrestrial LiDAR with Conventional Survey Data to Monitor Sediment Transport Through the Sunol Dam Removal Site |
| 11:45 pm | Virginia Mahacek | West Yost and Associates | Geomorpic investigation of Arroyo De La Laguna from Pleasanton to Sunol. |
| 12:15 | Lunch | | |
| 1:15 | Matt Wickland | Rohin Saleh | Development of future channel and marsh plain conditions to better inform flood modeling of Old Alameda Creek and the Flood Channel in the Eden Landing Area |
| 1:45 | Laura Hidas | Eric Cartwright | Impacts of sedimentation to ACWD's infrastructure |
| 2:15 | Josh Collins | Lester McKee | Alameda Creek stream goals: Something new to strive for? |
| 2:45 | Lester McKee | Mik Lewicki | Sediment monitoring in Alameda Creek watershed: Are all priority management needs being addressed adequately by the existing efforts? |
| 3:15 | | | Closing comments, ideas for the next meeting |
| 3:30 | Adjourn | | |
