**RMP Contaminant Fate Workgroup Meeting**

May 12th, 2011

10:00 AM – 4:00 PM

FIRST FLOOR CONFERENCE ROOM

(Second floor conference room is another workgroup)

Lunch will be provided

AGENDA

1.	Welcome, Introductions, and Goals for the Meeting Explain goals for meeting, overview of modeling strategy and outline studies for 2012	10:00 Jay Davis
2.	RMP Planning Update An update on the annual planning cycle for the RMP and the latest priorities of RMP stakeholders.	10:10 Jay Davis
3.	Action: Bay Margins Conceptual Model Report The draft report was distributed for review on April 21. The report will be presented and discussed. Written comments are requested by June 2. Desired outcome: Feedback from the group on the report.	10:25 Craig Jones Don Yee
	Lunch	12:00
4.	Information: USACE Modeling Update Update on USACE modeling activities in the Bay.	12:30 Megan Kaun
5.	Action: Bioaccumulation Conceptual Model Report A Powerpoint preview of the draft report will be presented. The draft report will be distributed for review later this month. Written comments will be requested three weeks after the report is distributed. Desired outcome: Discussion and preliminary feedback from the group.	12:55 Aroon Melwani
6.	Information: USGS Modeling Update The USGS has embarked on modeling using Delft 3D. An update on progress will be provided. An update on the sediment provenance study will also be provided.	1:25 Patrick Barnard

7.	<p>Action: Modeling Strategy A preliminary draft modeling strategy (including abiotic and biotic components) will be presented for discussion.</p> <p>Desired Outcome: Discussion and feedback on the preliminary strategy. Agreement on general scope of modeling work for 2012, or a process to develop that scope. After the general scope for 2012 and beyond is agreed upon, a specific scope of work for 2012 and a new modeling workplan will be prepared and distributed to the group via email for review.</p>	1:50 Don Yee Craig Jones Aroon Melwani Jay Davis
8.	Adjourn	4:00
9.	Social hour in SFEI foyer with Sources Pathway and Loadings workgroup	4:05
