

FINAL RMP ANNUAL MEETING AGENDA

THEME WATER QUALITY MONITORING: LINKING THE WATERSHEDS
AND THE BAY

October 5, 2010, The Oakland Museum, Oakland, CA

9:00	Welcome Rainer Hoenicke, San Francisco Estuary Institute
9:10	Emerging Stormwater Pollutant Reduction Strategies from Another Urban Watershed: Importing Some Ideas from the Chesapeake Bay Tom Schueler, Chesapeake Stormwater Network
9:40	Myths, Models, and Monitoring for Rainfall-Runoff Controls John Sansalone, University of Florida
10:10	Discussion
10:20	BREAK
10:40	Linkages Between Watersheds and the Bay: Past, Present, and Future Robin Grossinger, SFEI
11:00	The Municipal Regional Stormwater Permit Tom Mumley, San Francisco Bay Regional Water Quality Control Board
11:20	Low Impact Development: Implementation Examples and New Directions Laura Prickett, EOA
11:40	Discussion
11:50	Introduction of Audience Participation Activity
12:00	LUNCH
1:00	Lessons from Watershed Monitoring in Southern California Ken Schiff, SCCWRP
1:20	The RMP Small Tributary Loading Strategy Chris Sommers, EOA
1:40	Recent Advances in Bay Area Stormwater Science Lester McKee, SFEI
2:10	SWAMP: Monitoring the Health of Our Watersheds Karen Taberski, San Francisco Bay Regional Water Quality Control Board
2:30	Discussion
2:40	BREAK
3:00	Panel Discussion: Update on Sediment Science and Management Dave Schoellhamer, USGS; Brenda Goeden, BCDC; Tom Mumley, San Francisco Bay Regional Water Quality Control Board
3:20	PFCs in San Francisco Bay - Meg Sedlak
3:40	Update on Contaminants of Emerging Concern – Susan Klosterhaus
4:00	Discussion and Closing Remarks – Rainer Hoenicke
4:15	Adjourn
