

RMP 2016 ANNUAL MEETING AGENDA - DRAFT

Theme: Science to Support Decision-Making

October 7, 2016, The David Brower Center, Berkeley, CA

9:00	Welcome and Introduction Tom Mumley, San Francisco Bay Regional Water Quality Control Board
	Session 1: Contaminants of Emerging Concern
9:20	Impact of the RMP on Decision-Making - Phil Trowbridge, San Francisco Estuary Institute
9:40	Microplastics Strategy Update - Anna-Marie Cook, US Environmental Protection Agency
10:00	Science Needs Relating to Pesticide Management - Jennifer Teerlink, California Department of Pesticide Regulation
	Science Needs Relating to Green Chemistry - Anne Cooper Doherty, California Department of Toxic Substances Control
10:20	Discussion Moderated by TBD
10:40	BREAK
	Session 2: Sediment Contaminants, Dynamics, and Management
11:00	Small Tributary Loading Strategy Update (POC Synthesis, etc.) - Lester McKee, San Francisco Estuary Institute
11:20	Suspended Sediment Monitoring Update, Including El Nino Studies - Dave Schoellhamer, US Geological Survey
11:40	Science Needs Relating to Dredging - Brian Ross, US Environmental Protection Agency
12:00	Discussion Moderated by TBD
12:20	LUNCH
	Session 3: General RMP
1:20	Contaminants in Sport Fish, Including Sturgeon Selenium Studies - Jennifer Sun, San Francisco Estuary Institute
1:40	Contaminants in Sediment on the Bay Margins - Don Yee, San Francisco Estuary Institute
2:00	PCB Fate in Priority Margin Areas - Jay Davis, San Francisco Estuary Institute
2:20	BREAK
	Session 4: Nutrients
2:40	Nutrient Management Strategy Overview - Dave Senn, San Francisco Estuary Institute
3:10	Moored Sensor Work - Phil Bresnahan, San Francisco Estuary Institute
3:30	Nutrient Modeling and Application to Other RMP Study Areas - Rusty Holleman, San Francisco Estuary Institute
3:50	Discussion Moderated by TBD
4:10	Adjourn

Things to highlight:

- 25th Anniversary
- Karen Taberski Retirement
