

LIST OF REVIEW PANEL RECOMMENDATIONS

#	RECOMMENDATION	WHO
1	Better documentation of RMP planning and decision-making processes	SC
2	Describe the consensus-based process used in RMP planning and decision-making. Propose a procedure to resolve conflict when consensus-based decisions cannot be achieved.	SC
3	SFEI Board should review its membership	SFEI
4	Increase emphasis on biological effects	TRC
5	Increase public outreach	SFEI/SC
6	SFEI reconsider a Science Advisory Committee	SFEI
7	Closer collaboration with CEP	TRC/SC
8	Greater emphasis on publishing in journals	SFEI/TRC
9	Add a representative of the environmental community to the Steering Committee	SC
10	Enhance linkages with universities	SFEI
11	Enhance interaction with similar programs and activities in other parts of California	SC/TRC
12	Establish thresholds for evaluating all types of data collected by the RMP	TRC
13	Analyze an additional 20-25 alkylated PAHs	TRC
14	Analyze concentrations of biologically-available forms of contaminants in water	TRC
15	Incorporate process studies, partnering with academic researchers and apply for third party funding	TRC/SFEI
16	Continue the transition from a data collection focus towards synthesis into informational products that will aid decision-making	TRC/SC
